

From: The Stewards
To: RS1 Car No 18
Re: Request Application

Stewards Decision No. GT4-11
Date: September 24, 2022
Time: 19:47:29

TEAM: RS1 Car 18,

Competition: Sebring Race 1, GT-4 America

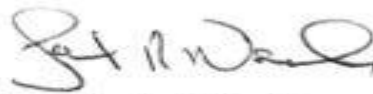

Supporting Documents: After the GT-4 race, RS1 requested of the stewards via RA GT-4 Car 18 form, for permission to remove the required fuel sample via top cover vs. the FIA approved fuel Port.

Fact: During Parc Ferme the technical delegate reported no fuel was exiting the port after 3 attempts.

Decision: Per GT-4 SR 26.14 fuel must be taken from the FIA approved self-sealing connector. There is no provision in the rules for an alternative fuel removal method. Therefore, the Stewards deny the team's request.

Robert Davis (chairman)

John Walsh

Peter Cunningham
