To: All GT4 America and GT America Competitors
Re: Balance of Performance Revision

Stewards Bulletin No. 10 Amended
Date: September 24, 2022
Time: 13:20

Teams: All GT-4 America – including GTA Competitors

Competition: Sebring Race(s) 2

Supporting Documents: GT-4 America SR, Emails from the Technical delegate, Sebring Event Schedule

Facts: The technical delegate emailed the notice of a GT-4 BOP revision for the Sebring event at 12:56 pm on September 24, 2022 and updated it again at 2:18 pm. The Sebring GT America race started at 12:10 and concluded at 12:50 including GT-4 cars in the race 1. GT-4 SR 30.5 states that a revision of the BOP must be 120 minutes before the start of Race 1 of an Event.

Decision: The Stewards after further review of the SR regarding the issuing BOPs (GT-4 SR 30.5) and consultation with the SRO GT America Technical Board, find the Technical Delegate did not meet the BOP adjustment timetable of 120 minutes before the first race of the event including GT-4 cars. The stewards regret issuing the BOP Bulletin to the competitors and stress that **“BOP GT4 Cars for Sebring”** dated 6/09/2022 is the required BOP for Sunday’s races (R2)
