Re: Technical Waiver - BMW M4 GT4

Decision No: GT4-01
Date: 4/16/23
Time: 13:10

The series Technical Manager has presented a request to the Stewards for a 1-event waiver for all 2022 and newer BMW M4 GT4 vehicles competing at NOLA Motorsports Park.

Due to supply chain logistic problems, a supply of the homologated front grills for these vehicles will not be available from the manufacturer in time for the NOLA event. This has been confirmed, in writing, by the BMWNA Motorsports Manager. The manufacturer has offered a replacement part that offers no competitive advantage or disadvantage. That part number is:

51 13 8 085 968

After considering the matter, the Stewards grant a 1-event waiver for affected BMW teams, to use the above-listed replacement part instead of the part listed on the homologation documents.
