Re: Chassis Change

Decision No: GT4-18
Date: 23 Sept 2023
Time: 19:00

The competitor has requested a change of chassis due to damage which occurred in Race 1.

After considering the matter, the Stewards consider the conditions are related to force majeure, and grant permission for the chassis change, and to participate in the GT4 Race 2, with the following conditions:

The replacement chassis must complete all required inspections before participating in any further Event sessions.

The competitor must coordinate with Timing on the correct function of the transponder, Lumirank and GPS systems.

The car must start at the rear of the grid for GT4 Race 2.
