

To: All Competitors

Subject: Addendum to the Race Director's Briefing

Date: 28 August 2021

Time: 09:25

Thank you for your being a part of this weekend's event. Your involvement and input each weekend is important to the continued success of GT4 America SprintX.

See below for a reminder of important procedures.

Starts: on initial race starts, the field is expected to be packed up and paired up no later that Turn 12-13 and should travel through Turn 14 as a group. There should be NO gapping past that point. Drivers deemed to have been tardy/delayed in getting in order will be referred to the stewards. There is no excuse not to have the full field lined up in order at the start.

Restarts: Much like the initial start, remember that there should be NO gapping coming out of Turn 12...the field should be packed up as it heads to the restart zone at Turn 14. Any driver delaying that order or unnecessarily creating gaps will be referred to the stewards.

Lighting: Refer to SR33.16 and 33.18.

Thank you again for being with us and have a great weekend.

Regards,

Brian Till

SRO GT4 America SprintX Race Director
